

HEALTHY BRAIN IV MEMORY+

A DIETARY SUPPLEMENT TO SUPPORT HEALTHY COGNITIVE FUNCTION IN THE AGING BRAIN†

Keep a Sharp Mind, Even After 65.

- Supports Normal Beta-Amyloid Plaque Levels†
- Promotes Cognitive Performance†
- Supports Memory and Mood†
- Helps to Counteract Everyday Oxidative Stress†
- Encourages a Calm Immune Response†
- Highly Bioavailable Ingredients

We all want to live longer and better lives, but living into our 90s doesn't pay off if our cognitive function is failing. Forgetfulness, sadness, and struggling with everyday tasks make life so much more difficult - and for our family members, too. To stay on our "A" game as we age, we have to optimize brain health early on. Your brain can continue working hard, long into your golden years.

Support Healthy Brain Function†

A certain kind of brain protein- called beta-amyloid peptide- clumps together to produce plaques. In **HEALTHY BRAIN IV MEMORY+**, Palmfruit BioActive Complex (PBC), pomegranate, and Shoden® Ashwagandha work together to promote healthy levels of these proteins.† Ashwagandha supports brain cell repair and recovery, improving cognitive performance and memory.†

Shield Your Brain from Everyday Wear and Tear†

When the brain is calm, cool, and collected, your mind is at peak performance and your memory is sharper than ever. Immulox® Colostrum and PBC work together to settle down the brain's immune system and cut down on everyday wear and tear, called oxidative stress. They do this by boosting your body's levels of a superstar antioxidant, glutathione. But that's not all, pomegranate protects brain cells from damage and Longvida® Curcumin calms the immune system and supports healthy mood.†

Healthy Aging is a Cinch with HEALTHY BRAIN IV MEMORY+

HEALTHY BRAIN IV MEMORY+ helps slow the aging process and counteract the stressors that affect the brain.† Brain cells have renewed energy and longevity. With a sharp, clear, focused mind, you can keep doing what you love to do- long into your elder years. Now that's growing old gracefully.

HEALTHY BRAIN IV MEMORY+ is used for:

- Supporting cognitive performance†
- Optimizing brain cell function and connectivity†
- Supporting memory and mood†
- Healthy aging†
