

# HEALTHY URINARY TRACT<sup>†</sup>

A DIETARY SUPPLEMENT

**Healthy Urinary Tract<sup>†</sup> is a dietary supplement that supports the immune and urinary tract systems.\***

## Healthy Urinary Tract<sup>†</sup>:

- Supports healthy flora<sup>†</sup>
- Does not affect “friendly” bacteria<sup>†</sup>
- Delivers a naturally occurring sugar with protective properties<sup>†</sup>
- Doesn’t interfere with normal blood sugar regulation<sup>†</sup>
- Goes to work in your system quickly<sup>†</sup>
- Supports the immune system<sup>†</sup>

## About the Nutrients:

**D-Mannose** is a glyconutrient and has many helpful health benefits. Glyconutrients are vital because they are eight types of sugars (known as saccharides) that formulate crucial compounds within the body. Antibodies and digestive enzymes are glycoproteins that assist the body’s cells in communicating with each other, which is highly beneficial to health.<sup>†</sup> D-mannose also removes “bad” bacteria by attachment and voiding.<sup>†</sup> It’s absorbed eight times slower than glucose and, when ingested, is not converted to glycogen or stored in the liver but, rather, goes directly into the blood stream from the kidneys to the bladder. Therefore it does not interfere with blood sugar regulation.<sup>†</sup> The bacterium displaced by Mannose is responsible for 80-90% of UTIs, whereas antibiotic treatment may cause an imbalance in the normal flora.<sup>†</sup>

**Cranberry Juice Powder** naturally contains Malic, Citric and Quinic Acids which are the active ingredients that acidify the urine and keep unwanted material from adhering to the cells that line the bladder wall.<sup>†</sup> These acids also promote thorough cleansing of the urinary tract.<sup>†</sup>

**Olive Leaf Powder** works directly against unwanted materials by supporting your own protective cells (phagocytes) to ingest them without suppressing the immune system or damaging the body’s beneficial flora.<sup>†</sup> Additionally, Oleuropein supports the immune system response and aids in detoxification.<sup>†</sup>

**FOS (Fructooligosaccharide) & Fibersol<sup>®</sup>-2** are two types of soluble fibers that support balanced intestinal micro flora and because they are so soluble and less dense, they mix instantly and do not cause bloating or gas like other fiber products.<sup>†</sup> They have been shown to support proper bowel function, regularity, fecal volume, beneficial intestinal micro flora populations, healthy digestive tract, and supports cholesterol, triglyceride and blood sugar levels within normal ranges.<sup>†</sup>

**Proprietary Shelf Stable Non-Dairy Probiotic Blend** contains 4 Billion CFU/g of the following strains:

*Lactobacillus acidophilus, Lactobacillus casei, Bifidobacterium breve, Streptococcus thermophilus, Bifidobacterium longum.*

## Supplement Facts

### Serving Size 1 scoop (5.6 grams)

#### Each Serving Contains:

|   |          |
|---|----------|
| Calories  | 20       |
| Total Carbohydrates   | 5 g      |
| Dietary Fiber**   | 2 g      |
| Calcium   | 80 mg    |
| D-Mannose   | 500 mg   |
| Cranberry Juice Powder  | 500 mg   |
| Olive ( <i>Olea Europea</i> ) Leaf Extract  | 100 mg   |
| FOS (Fructooligosaccharide)   | 1,000 mg |
| Fibersol <sup>®</sup> -2 Brand**  |          |
| digestion resistant maltodextrin  | 1,000 mg |
| Proprietary Nondairy Probiotic Blend  | 750 mg   |
| Containing 4 Billion CFU/g of the following strains:  |          |
| <i>Lactobacillus acidophilus, Lactobacillus casei, Bifidobacterium breve, Streptococcus thermophilus, Bifidobacterium longum.</i> |          |
| Stevia Leaf Extract   | 18 mg    |

Other Ingredients: citric acid, tricalcium phosphate, natural wild berry flavor, silica, red beet powder (color), natural mixed berry flavor.

**Warning:** If pregnant or nursing, consult your healthcare practitioner before taking this product.

**Suggested Use:** As a dietary supplement, mix one (5.6 g) scoop in water, one to three times daily, or as directed by your healthcare practitioner.

\*\*Dietary fiber from digestion resistant maltodextrin was tested using AOAC method #2001.03. Alternatively, AOAC method 2009.01 could be used.

Fibersol<sup>®</sup> is a registered Trademark of ADM/Matsutani LLC and Matsutani Chemical Industry Co.LTD.

Fibersol<sup>®</sup>-2 is a soluble dietary fiber produced by ADM/Matsutani LLC.
